

Ruthvik Pallukuri

Pittsburgh, PA | (312) 566-1408 | rpallukuri@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY:

Cloud networking and cybersecurity professional with a strong foundation in AWS infrastructure, cloud security, network configuration, and troubleshooting. Hands-on experience configuring VPCs, EC2 instances, subnets, route tables, security groups, NACLs, Internet and NAT Gateways, Route 53, and VPC connectivity through technical projects, labs, and network engineering experience. Skilled in Linux, AWS CLI, TCP/IP, DNS, BGP, OSPF, Wireshark, Nmap, and Nessus, with a focus on building secure, scalable, highly available, and cost-effective cloud environments. Analytical problem-solver and collaborative team member fluent in English and Telugu.

TECHNICAL SKILLS:

Operating Systems: Windows, Linux, MacOS

Software: Microsoft (Word, Excel, PowerPoint, Outlook, Calendar) and Google Suite

Cloud Computing: Cloud Concepts and AWS services; install and configure the AWS CLI, using AWS Systems Manager, creating a Website on S3 and Amazon EC2 instances; scale and load-balance the Architecture, configuring an Amazon VPC

Networking: Basic knowledge of Networking protocols and concepts, creating an AWS Virtual Private Cloud, launching EC2 instances, Security Groups, NACLs, Subnets, and Internet Gateways

Linux: Fundamental working knowledge of the Linux operating system and Shell Scripting, putting into Linux instances from Windows, editing and working with files, Users, and Groups, Managing File Permissions, working with Commands, and Managing Processes

AI & Automation Tools: ChatGPT, Microsoft Copilot, Prompt engineering to troubleshoot research, AI-assisted documentation and workflow support

Networking: DHCP, DNS, LAN Topology and Configuration, and troubleshooting

Remote Desktop Assistance: Network firewall, Host firewall, IDS, IPS, network packet capture analysis, Proxy server

EDUCATION:

Per Scholas | AWS re/Start Training | *Pittsburgh, PA*

November 2026

- This rigorous, full-time, 15-week virtual re/Start Training program provides an understanding of Cloud Computing Services, Networking, Databases, and AWS Cloud Management, Monitoring, and Governance Services.
- Attended weekly professional development sessions to build a personal brand, create a strong technical resume, practice professional communication and collaboration, and develop the skills required to succeed in a technical environment.
- Course Focus: Linux, Python, Auto Scaling, EC2, Lambda, Shell Scripting, Cloud Concepts, Network Firewall, AWS Systems Manager, Redshift, and DynamoDB.

Robert Morris University | Bachelor of science in Cybersecurity | *Pittsburgh, PA* | GPA 3.73

May 2026

- Built a strong foundation in networking, cloud networking, and security concepts, including TCP/IP, subnetting, routing, switching, firewalls, VPNs, access controls, and network security architecture.

PROFESSIONAL EXPERIENCE:

Houdini FX Artist | Technicolor | Bengaluru, India

December 2021-May 2022

- Developed realistic fire, water, destruction, and crowd simulations for RRR movie and House of the Dragon web series, ensuring visual effects aligned with production specifications and creative direction.
- Collaborated with FX supervisors and cross-functional production teams across the production to refine simulations and deliver visuals that met established quality standards.

- Completed simulation and rendering work within strict production timelines, supporting the on-time delivery of shots for the series House of the Dragon.
- Troubleshoot simulations and rendering issues across multiple projects, improving visual quality and helping reduce workflow delays.
- Optimized effects workflows and technical processes to improve rendering efficiency by 80% while maintaining production quality standards.

3D Designer | Guarented | Bengaluru, India

January 2020 – October 2021

- Created production-ready 3D assets for furniture models using Autodesk Maya and 3ds Max, ensuring accurate proportions, clean topology, and realistic design.
- Developed high-quality materials and textures in Adobe Substance 3D Painter to achieve realistic wood, fabric, leather, and metal finishes.
- Optimized 3D models, textures, and UV layouts for smooth performance in virtual reality environments.
- Integrated furniture assets into VR applications, maintaining visual quality while meeting real-time performance requirements.
- Conducted quality checks and resolved modeling, texturing, scaling, and VR integration issues before final delivery.

INTERNSHIP:

Network Engineer Intern | Robert Morris University, PA

May 2024 – August 2024

- Deployed and configured routers, switches, VLANs, and WAPs for high-availability campus environments.
- Automated IP addressing and subnetting strategies, reducing manual config time by 50%.
- Executed internal vulnerability assessments with Nmap and Nessus, identifying 20+ exploitable misconfigurations.
- Diagnosed complex packet routing issues using Wireshark and implemented remediation strategies across test networks.
- Optimized BGP and OSPF configurations to improve routing efficiency and failover response.
